

Freeflo Plumbing and Gas Pty.Ltd

PL 9620, GL 016815, BF 7186

CAPABILITY STATEMENT

CORPORATE STATEMENT

Freeflo Plumbing and Gas is a newly formed company. We offer a wide range of repairs and maintenance services for Domestic and Commercial properties.

Our maintenance service ensures plumbing systems work at optimum efficiency all the time and we are responsive to all 24 hours emergency call outs. You can rely on our team of qualified, experienced, fully insured plumbers for the safety and compliance of your property.

SERVICES PROVIDED

- **Genuine emergency plumbing & gas fitting** across the Perth Metro area 365 days a year (that's right – we're expert gas fitters as well!) We promise to answer your call any time of the day or night and will fix your plumbing & gas problems.
- **High Pressure Water Jetting** Clear drains to 150mm (6 inch) diameter blocked with tree roots up to 40mm diameter, sand, gravel, clay, fats or grease, waste matter or most foreign debris.
- **Drain Camera Inspections** Inspecting by CCTV camera is a quick and accurate way to check the condition of your underground drains.
- **Hot water maintenance** Advise, supply & install new Hot Water Units, plus
 - Gas servicing and repairs of all hot water systems.
- **Toilet Cistern Repairs & Replacement** Supply and fit all types of toilet cisterns and pans.
- **Burst pipes** Leaks detected and repaired.
- **Blocked Sewers and Storm Water Drains** All blocked drains cleared with drain machines.
- **Tap maintenance** All taps repaired or replaced.
- **Gas Appliance Servicing** Hot water units, space heaters, log fires, and gas pipework.
- **Backflow maintenance and prevention testing** Backflow prevention devices are often required on commercial properties. We can perform the annual testing and reporting required by your local council.
- **Tempering valves maintenance.**
